WARNING: ALL OF THIS HAS BEEN FALSIFIED!!!

Rotrude de Hesbaye, DAUGHTER of Charlemagne and WIFE of Ingelram de Hesbaye

0775 – 24 March 0852

<https://www.familysearch.org/tree/person/details/G98Y-RZM>

He's been promoting a falsified birth date of 758. The earliest that Ruodhaid Carolingian could have been born according to Geneanet, MyHeritage, and geni.com is 775. I don't get this person's obsessional need to promote obvious falsehoods; but, here it is. If you correct the errors, he just restores the falsehoods. There's nothing you can do about it, because it is deliberate. The only thing you can do is to warn people that it is false and explain why it is false.

ALL OF THIS HAS BEEN FALSIFIED.

FALSIFIED MEANS THAT IT HAS BEEN PROVEN FALSE.

READ, STUDY, LEARN.

DO ACTUAL RESEARCH.

PULL THESE PEOPLE UP ON MYHERITAGE AND GENEANET AND SEE FOR YOURSELF.

The daughters of Charlemagne were NEVER married to Ingelram de Hesbaye. Not even close!

According to some, Ruodhaid Carolingian may have been married to Mainier de Sens; but she was born 775 at the earliest, and according to the creator of this family group sheet, Gainfroi de Sens was born 765 -- at least ten years BEFORE Ruodhaid Carolingian was born.

It's physically impossible for a son or a daughter to be born ten years before his or her mother.

Finally, notice that Rotrude de Hesbaye was born EIGHT YEARS before her mother Madelgarde was born. That, too, is physically impossible.

The creator of this family group sheet never checks the dates nor the actual identity of these people. He just merges a bunch of different people together into ONE and then calls it done.

--

Charlemagne and Madelgarde were married in 774 according to the Wikipedia, which means that their daughter Ruodhaid Carolingian would have been born sometime thereafter.

Geneanet and MyHeritage have Ruodhaid Carolingian born in 775; and, other sources have her born in 790.

This person ERRONEOUSLY has Ruodhaid Carolingian born in 758 so that she's old enough to be her own mother and is older than her mother.

According to most sources, Madelgarde de Lommois was born between 760 and 766. Her daughter definitely is NOT going to be born in 758!!

--

NOTICE:

Geneanet and MyHeritage are united in their claim that Gainfroi de Sens was born in 770. That gives him an extra five years that he refuses to take. Instead, he insists that Gainfroi was born in 765, which would make his mother EIGHT years old when she gave birth to him.

The creator of this family group sheet never checks the dates nor the actual identity of these people. He just merges a bunch of different people together into ONE and then calls it done.

Hopefully, this one will stay around for a while, because he typically keeps deleting them faster than I can keep track of them, so as to keep his falsehoods hidden from the rest of us. But, some of us are on to him and keeping track.
